Hello everyone,

I reached out to CHP for a resource we can use for investigations in regards to License Plate Readers (LPR). They currently buy Vigilant and MVTRAC commercial data, also have a sharing relationship with 95% of California agencies along with a few private companies and communities.

CHP use NICB, DIESEL and NCRIC ALPR systems once a plate is developed.

During the course of an investigation we can email any request to InvestigativeSupport@chp.ca.gov.

Let me know if you have any questions.

Andy
